50% More Mileage

In Boston, Green & Swett Co. watched the Miller records on some hundreds of large cars. They found that Millers increased the former tire mileage from 50% to 75%. They eliminated blow-out troubles. And only six tires in each 1,000 proved disappointing

## \$1,000 Daily To Reduce Your Tire Cost

The Miller Tire mileage, now discussed everywhere, is not an accident. Over \$1,000 daily is spent in tests and in-

spections. Fifty inspectors guard against Every lot of tread stock is first vulcanized

and tested in the laboratory. Over 1,000 tires yearly are worn out in factory mileage tests.

Every tire is signed by maker and inspector, and both are penalized if a tire falls down. Highly-paid experts spend their years in making betterments.

Mark the results

The Miller Tire is now talked everywhere. It is today's sensation.

It is winning countless contests where a score of makes are brought into comparison. In the factory tests - radical rear-wheel tests - Miller cords last year averaged 15,000

The new Miller treads, in these tests, outwear the best of others by 25%. Defectivé Miller Tires are a rarity. Some large Miller dealers last year

had not a single adjustment. If you don't know these new-day tires you should find them out. They are saving millions of dollars to motorists.

Get one and watch it. It will give you new conceptions of a modern tire.
